RE: EB Docket No. 06-36
Annual CPNI Certification for Year 2009

Dear Ms. Dortch:

In accordance with FCC Enforcement Advisory DA 10-91, issued on January 15, 2010, attached is the annual CPNI certification filing covering the year of 2009, pursuant to 47 C.F.R § 64.2009(e), for Nebraska Central Telecom, Inc.

Sincerely,

A handwritten signature in black ink, reading 'Andrew D. Jader'.

Andrew D. Jader
Vice President – Administration
Nebraska Central Telecom, Inc.

Annual 47 C.F.R. § 64.2009(e) CPNI Certification

EB Docket 06-36

Annual 64.2009(e) CPNI Certification for 2010 covering the prior calendar year 2009

1. Date filed: February 19, 2010
2. Name of company(s) covered by this certification: Nebraska Central Telecom, Inc.
3. Form 499 Filer ID: 802538
4. Name of signatory: Andrew D. Jader
5. Title of signatory: Vice President - Administration
6. Certification:

I, Andrew D. Jader, certify that I am an officer of the company named above, and acting as an agent of the company, that I have personal knowledge that the company has established operating procedures that are adequate to ensure compliance with the Commission's CPNI rules. See 47 C.F.R. § 64.2001 *et seq.*

Attached to this certification is an accompanying statement explaining how the company's procedures ensure that the company is in compliance with the requirements (including those mandating the adoption of CPNI procedures, training, recordkeeping, and supervisory review) set forth in section 64.2001 *et seq.* of the Commission's rules.

The company has not taken actions (*i.e.*, proceedings instituted or petitions filed by a company at either state commissions, the court system, or at the Commission against data brokers) against data brokers in the past year.

The company has not received customer complaints in the past year concerning the unauthorized release of CPNI

The company represents and warrants that the above certification is consistent with 47 C.F.R. § 1.17 which requires truthful and accurate statements to the Commission. The company also acknowledges that false statements and misrepresentations to the Commission are punishable under Title 18 of the U.S. Code and may subject it to enforcement action.

Signed Andrew D. Jader

Attachments: Accompanying Statement explaining CPNI procedures

OPERATING PROCEDURES FOR COMPLIANCE WITH CPNI RULES

Nebraska Central Telecom, Inc. (the "Company") has implemented the following procedures to ensure that it is compliant with Part 64 of Title 47 of the Code of Federal Regulations, Subpart U – Customer Proprietary Network Information (CPNI), § 64.2001 through § 64.2011.

Related Company Subcontractor

The Company contracts with an affiliated company, The Nebraska Central Telephone Company ("NCTC") for customer service, billing and for the maintenance of CPNI information. The Subcontractor is required to treat all Company customer information exactly as it treats its own customer information and to comply with all CPNI requirements in this operating procedure. References to personnel within this document refer to the individuals that NCTC uses when it conducts its efforts on behalf of the Company.

Compliance Officer

NCTC has appointed a CPNI Compliance Officer which whom acts on behalf of the Company. The Compliance Officer is responsible for maintaining records and for ensuring that the Company is in compliance with all of the CPNI rules. The Compliance Officer is also the point of contact for anyone (internally or externally) with questions about CPNI.

Personnel Training:

The Compliance Officer arranges for the training of all personnel on an annual basis or more frequently if needed. All new personnel are trained and given a NCTC Consumer Protection Policy Manual, which includes NCTC's CPNI policy, when hired. The training includes, but is not limited to, when personnel are and are not authorized to use CPNI, and the authentication methods the Company is using. The detail of the training can differ based on whether or not the personnel have access to CPNI.

After the training, all personnel are required to sign a certification that they have received a manual and have been trained on the CPNI rules, that they understand NCTC's procedures for protecting CPNI and they understand the NCTC's disciplinary process for improper use of CPNI. These same policies and procedures apply to the Company because of the use of NCTC personnel for the customer service functions of the Company.

Personnel are instructed that if they ever have any questions regarding the use of CPNI, or if they are aware of CPNI being used improperly by anyone, they should contact the Compliance Officer immediately.

Disciplinary Process

The Company, through NCTC, has established a specific disciplinary process for improper use of CPNI. The disciplinary action is based on the type and severity of the violation and could include any or a combination of the following: retraining the person on CPNI rules, notation in the person's personnel file, formal written reprimand, suspension or termination.

The disciplinary process is reviewed with all personnel and is outlined in NCTC's Consumer Protection Policy Manual (and thus is applicable to the Company) which all personnel are given.

Customer Notification and Request for Approval to Use CPNI

The Company has provided notification to its customers of their CPNI rights and has asked for their customer's approval to use their CPNI via the opt-out method. The Company sends the opt-out notice every two years to those customers that have not previously opted out. The last

notices were mailed out December 30th 2009 for the billing cycle 1 customers and January 19th 2010 for the billing cycle 2 customers. A copy of the notification is also provided to all new customers.

The status of a customer's CPNI approval is prominently displayed as soon as the customer's account is accessed so that personnel can readily identify customers that have restricted the use of their CPNI.

For the customers that have opted-out and said the Company cannot use their CPNI, that decision will remain valid until the customer changes it.

The Company will provide written notice within five business days to the FCC of any instance where the opt-out mechanisms do not work properly, to such a degree that consumers' inability to opt-out is more than an anomaly.

A copy of the most recent notification is kept with the files that are maintained by the Compliance Officer.

Marketing Campaigns

The Company does not disclose or allow access by third parties to CPNI. NCTC's sales personnel, working on behalf of the Company, must obtain supervisory approval of any proposed outbound marketing request for customer approval. NCTC's CPNI Compliance Officer reviews all proposed outgoing campaigns and materials to ensure that they are in compliance with the CPNI rules.

Company marketing campaigns and a record of their compliance are recorded and maintained for a period of two years. The record includes a description of each campaign, if CPNI was used and, if so, the specific CPNI that was used and what products and services were offered as part of the campaign.

Authentication

The Company, through NCTC personnel, does not disclose any CPNI until the customer has been appropriately authenticated as follows:

In-office visit - the customer must provide a valid photo ID matching the customer's account information and the customer must be listed on the account.

Customer-initiated call - the customer is authenticated if they are listed as a contact on the account and able to provide the answer to the pre-established question of what the last four digits of their Social Security or Federal ID Number is. The account contact information can be located on the CPNI Questions Screen accessed on a customer's account.

If the customer wants to discuss call detail information the following guidelines are followed:

- If the customer can provide all of the call detail information (telephone number called, when it was called, and the amount of the call) necessary to address the customer's issue, the personnel will continue with routine customer care procedures.
- If the customer cannot provide all of the call detail information to address the customer's issue, the personnel will: (1) call the customer back at the telephone number of record, (2) send the information to the address of record, or (3) ask the customer to come into the office and provide a valid photo ID.

Online access – A password is set up at the time service is established for new customers and after proper authentication for existing customers. The customer is authenticated without the use of biographical or account information by having the customer come into NCTC's business office with a valid photo ID, calling the customer at the telephone number of record or by sending a randomly-generated PIN # to the customer's address of record. The customer is then only allowed online access through the use of a password that is not based on readily available biographical or account information.

For instances of lost or forgotten passwords, a backup authentication method is available and can be generated by the customer after the customer accesses their online account for the first time. The back-up authentication method is a non-biographical non-account based question that is selected by the customer from a pre-established list. In the event that an online account has three consecutive unsuccessful log-in attempts, the account will be blocked until the customer is again authenticated without using biographical or account information.

Notification of Account Changes

NCTC's computer system that is used for accessing Company information is programmed to automatically generate and print a notice anytime one of the following changes has been made to an account. The notices are printed and sent, through NCTC, out to the postal address of record that same day. A record of that notice is automatically generated into an e-mail which is sent to the CPNI Compliance Officer for review and tracking purposes.

- Service or billing name
- Contact name (and/or) ID #
- Address of record

NCTC's computer system, which is used for accessing Company information, is programmed to send out an electronic notice to the e-mail address of record any time an online account is added or changed. The notice advises that a change has occurred but does not advise the changed information. An electronic record of that notice is generated into an activity log which can be accessed through the NCTC's computer system for reviewing and tracking purposes.

Notification of Breaches

Personnel will immediately notify the Compliance Officer and fill out a statement of breach if there is any indication that a breach may have occurred. If it is determined that a breach has occurred, the Compliance Officer will do the following:

- Notify the United States Secret Service (USSS) and the Federal Bureau of Investigation (FBI) as soon as practicable, but in no event later than 7 business days after determination of the breach. The notification will be via the FCC link at <http://www.fcc.gov/eb/cpni>.
- Notify customers only after 7 full business days have passed since notification to the USSS and the FBI, unless the USSS or FBI has requested an extension.
- If there is an urgent need to notify affected customers or the public sooner to avoid immediate and irreparable harm, it will be done only after consultation with the relevant investigating agency.
- Maintain a record of the breach, the notifications made to the USSS and FBI, and the notifications made to customers. The record should include dates of discovery and notification, a detailed description of the CPNI that was the subject of the breach, and the circumstances of the breach.

- Include a summary of the breach in the annual compliance certificate filed with the FCC.

Annual Certification

The Compliance Officer will file a Compliance Certification with the FCC by March 1 of each year, for data pertaining to the previous calendar year.

Record Retention

The Company retains all information regarding CPNI filed in the possession of the Compliance Officer. Following is the minimum retention period the Company has established for specific items:

- CPNI notification and records of approval – two years
- Marketing campaigns – two years
- Breaches – two years
- Annual certification – five years
- Employee training certification – one year beyond completion of work
- All other information – two years
